McMASTER-CARR®

Tygon PVC Tubing for Food, Beverage, and Dairy 1/4" ID, 3/8" OD

In stock \$1.71 per ft. 6546T13

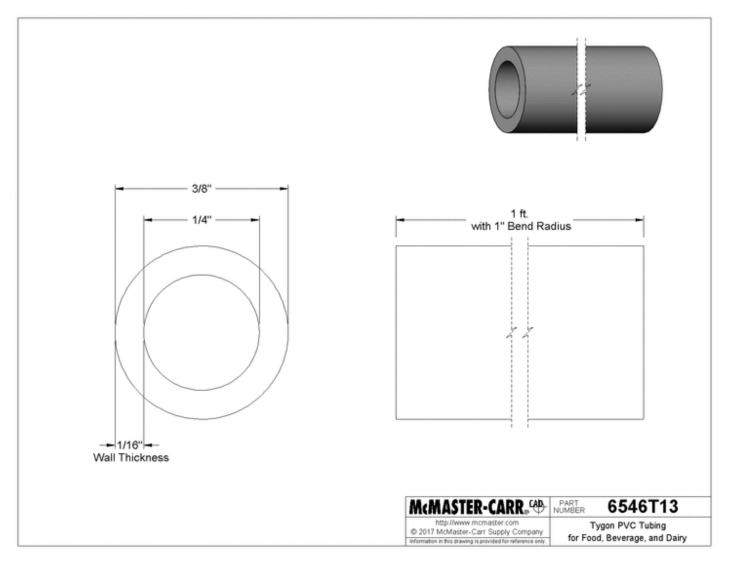

For Use With	Food, Beverage, Dairy
Material	PVC Plastic
Trade Name	Tygon
Trade Number	B-44-4X
Hardness Rating	Soft
Hardness	Durometer 65A
End Type	Without Fittings
Connection Type	Tube
For Connection Style	Barbed
Clarity	Clear
ID	1/4"
OD	3/8"
Wall Thickness	1/16"
Flexibility	Flexible
Bend Radius	1"
Temperature Range	-30° to 160° F
Maximum Pressure	30 psi @ 72° F
Maximum Vacuum	Not Rated
Color	Clear
Length	50 ft.
Specifications Met	Made of FDA Listed Materials, NSF/ANSI Standard 51 for Food Contact, 3-A Certified
Sterilize With	Gas, Steam (Autoclaving)
RoHS	RoHS 3 (2015/863/EU) Compliant
REACH	REACH (EC 1907/2006) (01/16/2020, 205 SVHC) Compliant
Country of Origin	United States

The industry standard for general purpose food, beverage, and dairy applications, this tubing is made of FDA listed materials and meets NSF/ANSI Standard 51 for food contact. Tubing doesn't contain plasticizers like DEHP, so it won't impart tastes or odors to the fluid passing through it. It has a nonabsorbing surface, which makes it easy to clean. Tubing is clear, so you can easily monitor flow through the line. It is flexible, so it bends easily around objects.

Tygon PVC tubing can withstand lower temperatures than standard PVC tubing. It is 3-A certified for dairy.
